New York, Aug. 27, 1847

M. Thaddeus

I receive with a great approbation the news that a draft of a million dollars has been appropriated for the relief of the suffering poor of Poland and Russia. Under your directions to be transported in a National Vessel, will become law. Therefore, very respectfully solicit as a great favor that you will order me to that command; having already some deep reports intimated to me that committee may succumb of late. My very deep esteem the performance of the House, and in view of the present effort in view please write letters of every hour on his behalf, and beg your consideration of my application.

With profound respect,

Please this long letter.

Very devotedly,

Thaddeus

To James L. Polk

President of the United States

Cabinet No. 2
